

SUNDAY, APRIL 3 | AT-A-GLANCE

- 7:30–17:00: Registration Desk Hours**
- 8:30–9:00: Opening Ceremony**
- 9:00–10:15: Plenary 1 (PL1)**
- 10:15–10:45: Break**
- 10:45–12:00: Concurrent Abstract Session 7 (CS7)**
- 12:00–13:00: Lunch Break**
- 12:15–13:00: Poster Session 3 (PS3)**
- 13:15–14:45: Plenary 2 (PL2)**
- 14:45–15:15: Break**
- 15:15–16:30: Concurrent Abstract Session 8 (CS8)**
- 16:30–17:00: Break**
- 17:00–18:15: Plenary 3 (PL3)**
- 18:15–19:15: ISUH Business Meeting**
- 19:30–21:00: ISUH Board Meeting and Dinner**

SUNDAY

PL 0

Opening Ceremony

Room: Nikko Grand Ballroom, 3rd Floor

Welcome:

Shamim Hayder Talukder, MBBS, MPhil

President,
International Society for Urban Health
Founder Chief Executive Officer,
Eminence

David Vlahov, RN, PhD, FAAN

Dean & Professor, School of Nursing,
University of California, San Francisco
Editor-in-chief,
Journal of Urban Health

Yongguan (Y-G) Zhu, PhD for ICSU

Professor of Environmental Biology, Director
General of the Institute of Urban Environment,
Chinese Academy of Sciences (CAS)

**Jose Gabriel Siri, PhD, MPH, BS for
UNU-IIGH**

Research Fellow, United Nations University

Jo Ivey Boufford, MD for IAMP

President,
The New York Academy of Medicine

Sponsor Remarks:

Ann Aerts, MD

Head of the Novartis Foundation

Tracy Orleans, PhD

Senior Scientist,
Robert Wood Johnson Foundation

9:00-10:15 PLENARY 1

PL 1

Global Initiatives for Urban Health

Room: Nikko Grand Ballroom, 3rd Floor

Chair: Jo Ivey Boufford, MD

President, The New York Academy of Medicine

Speakers:

Joan Clos, MD

Executive Director, United Nations Human Settlements Programme (UN-Habitat)

Carlos Dora, MD, PhD

Co-ordinator, Public Health, Environmental and Social Determinants of Health Department,
World Health Organization

Salin Geevarghese

Deputy Assistant Secretary,
Office of Policy Development & Research
U.S. Department of Housing and Urban Development

Break: 10:15 - 10:45

SUN
04/03

10:45-12:00 CONCURRENT SESSIONS

CS 7.1

SPECIAL SESSION

Hidden Urban Health: Exploring the Possibilities of Grey Literature

Room: Mendocino II

Chair: Robin Naughton & Danielle Aloia

The New York Academy of Medicine

Are you a researcher looking for hard-to-find research reports produced by colleagues, leading institutions, and leaders in your field to support research and policy? Are you interested in useful search strategies and ways to find valuable resources not published by commercial publishers?

If so, we'd like to introduce you to grey literature, publications that are not published by commercial publishers, including reports, fact sheets, technical standards, and statistical analyses produced by government agencies, non-profits, academic institutions, and think tanks.

In 1999, the New York Academy of Medicine began producing the Grey Literature Report (GreyLit) to fill the gaps in peer-reviewed research. The GreyLit Team produces a bi-monthly report with the most current grey literature in urban health. The GreyLit team will showcase the GreyLit Report, leading a discussion with attendees on selection and collection criteria, search strategies, and hear from the urban health research community on its needs and insights.

Attend one of the sessions to learn more!

Presenters:

Danielle Aloia, MSLS

Special Projects Librarian at The New York Academy of Medicine. She received her MSLS from Catholic University of America, in Washington, DC, in 2005 while working on the AgeLine Database at AARP. She has 25 years of experience in a variety of library settings, including academic, non-profit, and museum. She has been involved with collecting, evaluating, and cataloging grey literature since 2005, first at AARP and then at the United States Department of Transportation. For the past 5 years she has been managing the Academy Library's Grey Literature Report.

Robin Naughton, PhD

Dr. Robin Naughton is the Digital Systems Manager for the New York Academy of Medicine. Prior to joining the Academy, Dr. Naughton was a Digital Consultant with LearningExpress, an EBSCO company, and Oxford University Press, English Language Teaching. She received an Institute of Museum and Library Services (IMLS) fellowship for digital librarianship, and completed her PhD in Information Science from Drexel's College of Computing and Informatics in 2012. Dr. Naughton is a user-centered researcher focused on human-computer interaction (HCI) and mental models, specifically how to design and build interactive systems that are useful, easy to use, and enjoyable.

Lunch Break: 12:00 - 13:00

CS 7.2

LMIC 01

LMIC Lessons Learned - Models for Built Environment That Advance Health and Equity in Cities**Room: Golden Gate Room**

Chair: Kimberly Libman, The New York Academy of Medicine

Road crossing safety for vulnerable road users: school pupils' assessment of their walking routes in the Cape Coast metropolis of Ghana

Regina Obilie Amoako-Sakyi (University of Cape Coast), Kwabena Koforobour Agyemang (University of Cape Coast), Kingsley Nana Osei (University of Cape Coast), Albert Abane (University of Cape Coast), Edem Amenumey (University of Cape Coast)

Rapid Health Impact Assessment of Transport Policies in Maputo, Mozambique

Chair: TBD

**Identifying the Intersection of Disaster Vulnerability and
Mental Health Service Shortage in New York City**

Daniel Carrion (Columbia University), Patrick Kinney (Columbia University)

**Place and Health: Health problems experienced by urban
dwellers in Gaborone, Botswana**

Bailey Balekang (University of Botswana)

**Urban Health Challenges of coastal city: A case study of
Surat, India**

Dr Vikas Desai (Urban Health And Climate Resilience Center), Suresh Kumar Rathi (Urban Health And Climate Resilience Center), Anuj Ghanekar (Urban Health And Climate Resilience Center), Priyanka Jariwala (Urban Health And Climate Resilience Center), Hemant Desai (Health Department, Surat Municipal Corporation)

**Urban Health Challenges of coastal city: A case study of
Surat**

Dr Vikas Desai (Urban Health And Climate Resilience Center), Anuj Ghanekar (Urban Health And Climate Resilience Center), Suresh Rathi (Urban Health And Climate Resilience Center), Priyanka Jariwala (Urban Health And Climate Resilience Center), Hemant Desai (Health)

**Socio-territorial approaches to health: a multi-disciplinary
study of urban health inequalities in West Africa**

Ellen Foley (Clark University), Florence Fournet (Institut de)

Lunch Break: 12:00 - 13:00

CS 7.8

**Place Based Actions to Prevent Disease and Promote Health
In Cities - 08**

Room: Carmel II

**Chair: Elena Rios, MD, MsPh, National Hispanic Medical
Association**

**Assessment of immunization status in the urban slums;
mothers' education and low socio economic status
remained crucial contributors to low immunization
coverage among children in Pakistan: cross sectional study**

Sumera Inam (School of Public Health, Dow University of Health Sciences), Nadia Shah (School of Public Health, Dow University of Health Sciences)

**Multi Sector Collaboration; Pathway to Cervical and Breast
Cancer Control in Nigeria**

Foluso Ishola (Youth Society on Cancer Nigeria (YSCN) Global Youth Coalition against Cancer (GYCC))

**Improving girl's ability to complete secondary school
through peer intervention in the Mukuru slum, Nairobi Kenya**

Peter Chacha Musya Baru (U-Tena Performing Artists - Youth Organization, Nairobi, Kenya), U-Tena Arts and Education Society, Vancouver, Canada 2), Caitlin Johnston (U-Tena Arts and Education Society, Vancouver, Canada.), Michael Onchuru (African Population and Health Research Center)

**HIV Testing strategies for reaching Urban Hispanic Young
Adults: A University-Community Partnership**

Michelle Hospital (Florida International University), Eric Wagner (Florida International University), Staci Morris (Florida International University), Melissa Howard (Florida International University), Juliette Graziano (Banyan Health Systems), Sofia Fernandez (Florida International University)

Lunch Break: 12:00 - 13:00

CS 7.9**Place Based Actions to Prevent Disease and Promote Health In Cities - 09****Room: Carmel I****Chair: Victoria Frye, The City College of New York****Assessment of Healthcare Workers Knowledge on HealthCare Waste Management in Selected Health facilities in Abuja and Benue State, Nigeria**

Moyosola Bamidele (John Snow Training & Research Institute Inc),
 Abimbola Sowande (John Snow Training & Research Institute Inc),
 Olufunke Jibowu (John Snow Training & Research Institute Inc), Kelechi
 Amaefule (John Snow Training & Research Institute Inc), Bala Muazu (John
 Snow Training & Research Institute Inc)

Improving practices of parents and caregivers to reduce unintentional home injuries of children below 5 years in a village in Sri Lanka

Nayana Ihalahewage (Rajarata University of Sri Lanka), Shreenika de Silva
 Weliange (University of Colombo), Manoj Fernando (Rajarata University of
 Sri Lanka)

Increasing Access To Quality Health Care Using Health Technology To 'Cut-Out' urban communities in Nigeria

John Ede (Ohaha Family Foundation)

Towards an evaluation of the local scale health and climate related ecosystem services of street trees

Jennifer Salmond (School of Environment, University of Auckland),
 Marc Tadaki (University of British Columbia), Sotiris Vardoulakis (Centre
 for Radiation, Chemical and Environmental Hazards, Public Health
 England), Katherine Arbuthnott (London School of Hygiene and Tropical
 Medicine, Department of Social and Environmental Health Research),
 Andrew Coutts (School of Earth, Atmosphere and Environment, Monash
 University)

Built environment and its linkages to health in an urban settlement: A study of selected localities in Greater Mumbai City

Vidya Yadav (International Institute for Population Sciences, Mumbai.)

Lunch Break: 12:00 - 13:00

SUN**04/03****10:45-12:00 CONCURRENT SESSIONS****CS 7.10****SPECIAL SESSION****Education and Training for Urban Health:
Research, Policy & Practice****Room: Nikko III****Chair: Jason Corburn & Gerard Salem**

The conveners of the pre-conference workshop—The Role of Action Research in Training—will present results and recommendations of the meeting. Two abstracts presenting innovative educational programs on urban health will also be presented. The International Society for Urban Health hopes to receive recommendations from the discussion for advancing its work on education and training for urban health professionals.

Strengthening ties and opportunities in health and planning education contextualized in urban environments: an innovative approach for capacity building in urban health

Waleska Caiaffa (Federal University of Minas Gerais – UFMG, Belo Horizonte Observatory for Urban Health – OSUBH, School of Medicine), Heloisa Costa (Federal University of Minas Gerais – UFMG, Department of Geography – Institute of Geosciences), Doralice Pereira (Federal University of Minas Gerais – UFMG, Department of Geography – Institute of Geosciences), Janise Dias (Federal University of Minas Gerais – UFMG, Department of Geography – Institute of Geosciences), Renato Souza (Federal University of Minas Gerais (UFMG), Department of Urbanism and Projects – School of Architecture)

Developing the sensitivities of policy makers and practitioners to urban health contexts and complexities

Alayne Adams ((BRAC) James P Grant School of Public Health, BRAC University), Shoshannah Williams ((BRAC) James P Grant School of Public Health, BRAC University), Sabina Rashid ((BRAC) James P Grant School of Public Health, BRAC University)

Lunch Break: 12:00 - 13:00

CS 7.11

Evidence for Action in Policy and Programs - 13

Room: Monterey I

Chair: Mark Rosenberg, Queens University, Canada

Urban-rural disparities in obesity levels: a global trends analysis

Honor Bixby (Imperial College London, on behalf of NCD-RisC)

Sanitation for People with Disabilities: A Framework for Research and Practice

Pavani Ram (University at Buffalo, The State University of New York),
James Jensen (University at Buffalo, The State University of New York),
James Lenker (University at Buffalo, The State University of New York)

Urban Health System Development in the Philippines: A Policy Analysis

Rosalie Espeleta (Department of Health-National Capital Regional Office)

The Effect of Urbanization on Insulin Resistance

Mohan Thanikachalam (Department of Public Health and Community
Medicine, Tufts University School of Medicine), Christina Fuller (Georgia
State University), Kevin Lane (Yale School of Forestry and Environmental
Studies), Jahnvi Sunderrarajan (Sri Ramachandra University), Hari
Vanzan (Sri Ramachandra University)

Influencing Active Travel Behavior: The Importance of Social Norms

William Riggs (Cal Poly, San Luis Obispo)

Lunch Break: 12:00 - 13:00

PS 3

POSTER SESSION 3

Room: Grand Ballroom Foyer, 3rd Floor

1 Housing and Health: What are the problems and where can we find them?

Carrie Beth Lasley (Wayne State University), Lyke Thompson (Wayne State University)

2 Geospatial analysis to identify census tracts with TB clusters and associated socio-economic factors in a local health department

Doug Schenk (Santa Clara County Public Health Department, California), Wen Lin (Santa Clara County Public Health Department, California), Anandi Sujeer (Santa Clara County Public Health Department, California)

3 Role of community based organizations (CBOs) in provision of Water and Sanitation system initiative through Urban Health Program in Karachi

Muhammad Imran Khan (Aga Khan University)

4 Eliminating Cancer Health Disparities among Urban Slum Dwellers in Nigeria

Foluso Ishola (Youth Society on Cancer Nigeria (YSCN) Global Youth Coalition against Cancer (GYCC))

5 Knowledge and Practice of Non Pharmacological Management of Pain among Sickle Cell Clients in Selected Hospitals, Southwestern Nigeria

Oluwatoyin Adeleke (State Hospital, Oyo, Research and Development Unit, Oyo State, Oyo State Ministry of Health.), Olasoji Oluwafemi (Omega Academic Grammar School, Ile-Ife, Nigeria), Olawale Oluwafemi (Nigerian Space Agency, Centre for Geodesy and Geodynamics, Toro, Bauchi State)

6 Interacting in narrow streets: The contingencies of living in old, historic, built-up neighbourhood environments and their effect on health and wellbeing

Bernadine Satariano (University of Durham)

7 Concept of Schistosomiasis Infection Indice: a new tool to assess schistosomiasis transmission sites

Frederic Compaore (International Institute for Water and Environmental Engineering 2iE), Sou/dakoure Mariam (International Institute for Water and Environmental Engineering 2iE), Yacouba Hamma (International Institute for Water and Environmental Engineering 2iE), Simpore Jacques (UNIVERSITY OF OUAGADOUGOU)

8 Schistosomiasis transmission sites assessment: case study of an endemic village in Burkina Faso during the rainy season

Frederic Compaore (International Institute for Water and Environmental Engineering 2iE), Sou/dakoure Mariam (International Institute for Water and Environmental Engineering 2iE), Yacouba Hamma (International Institute for Water and Environmental Engineering 2iE), Simpore Jacques (UNIVERSITY OF OUAGADOUGOU)

- 9 From Management to Curative Therapies for Chronic Diseases: Promise of Grain Amaranth and Traditional Healthcare Systems**
Linus Ndonga (Strategic Poverty Alleviation Systems–SPAS)
- 10 Dhaka, the Least Livable City in the World**
Md. Sirajul Islam Molla (Sunder Jiban), Farhat Samin (University of Dhaka)
- 11 HIV Testing Outcomes Following Implementation of a Community-level HIV Stigma and Homophobia Prevention Intervention in an Urban Neighborhood in the United States**
Victoria Frye (City College of New York, CUNY), Mark Paige (New York Blood Center), Steven Gordon (Gay Men of African Descent), David Matthews (Brooklyn Men Connect/ Bridging Access to Care), Emily Greene (New York Blood Center), Vaughn Taylor-Akutagawa (Gay Men of African Descent), Beryl Koblin (New York Blood Center)
- 12 Urban-Rural Inequities in use of Maternal Health Services in Nepal, 1991-2010**
Milima Singh Dangol (Thammasat University)
- 13 Labor Incomes of Health Care Workers and Multiple Jobs Holding in Urban Areas of Cameroon**
Gaston Brice Nkoumou Ngoa (University of Yaoundé II, REMA University Paris Dauphine, DIAL)
- 14 When and Why Youth use their Cell Phones: Links to School, Family, and Peer Connectedness**
Maya Peled (McCreary Centre Society), Annie Smith (McCreary Centre Society), Duncan Stewart (McCreary Centre Society)
- 15 Creating a place for experiential youth in mental health research**
Annie Smith (McCreary Centre Society), Maya Peled (McCreary Centre Society), Duncan Stewart (McCreary Centre Society)
- 16 Can mega sporting events increase sports participation and physical activity among Canadian youth in urban centres?**
Annie Smith (McCreary Centre Society)
- 17 Data and Disease in Dhaka: Patterns and Perceptions of Illness in an Unplanned Community in Sankar**
Amanda Morse (University of Washington), Ishtique Zahid (Spreeha Bangladesh Foundation), Ian Painter (University of Washington)
- 18 Sanitation status of Srikakulam Urban-A.P, India- A study**
Mythili Kethavarapu (GovtCollege for Women, Srikakulam, A.P), Jyothsna Caray (GovtCollege for Women, Srikakulam, A.P)
- 19 Pattern of Healthcare Utilization of India's Urban Middle Class for Maternal Health: Comparative Analysis of two rounds of national level data**
Susrita Roy (Jawaharlal Nehru University)

20 Morbidity and Mortality among Municipal Motor Loaders and Street Sweepers in Mumbai

Pradeep Salve (International Institute for Population Sciences), Dhananjay Bansod (International Institute for Population Sciences)

21 Bangladesh Garments, Where Humanity Cries

Farhat Samin (University of Dhaka), Md. Sirajul Islam Molla (Sun)

22 Water and Sanitation Deprivation and Disease Experience in Inner Core Neighbourhoods of Minna, Nigeria

Yekeen Sanusi (Federal University of Technology, Minna, Nigeria)

23 Ambient Air PM_{2.5} and its Impact on Cardiovascular Disease in Ulaanbaatar Residents

Enhjargal Altangerel (Ach medical university)

24 The determinants of the economic and financial standing of the public hospitals in Senegal

Mansoum Ndiaye (Gaston Berger University of Saint-Louis)

25 How older people experience weather in everyday life: An ethnographic approach in an urban context

Maria Antonietta Mascolli (School of Public Health, University of Sao Paulo), Wanda Maria Risso Gunther (School of Public Health, University of Sao Paulo)

26 Variations in neighborhood perceptions by race and legal status

Alexis Cooke (University of California, Los Angeles Fielding School of Public Health), Maria-Elena Young (University of California, Los Angeles Fielding School of Public Health)

27 Cities destruction caused by hydrological disasters with environmental determinants partner and their impact on urban health

Jorge Castro (Oswaldo Cruz Foundation/ Fiocruz)

28 Residential segregation and Mortality Rates: A geospatial analysis of mortality rates in India

Ankita Shukla (International Institute for Population Sciences, Mumbai.)

29 Decomposing Socioeconomic Inequality in Immunization Rates in Uttar Pradesh and its Regions

Ankita Shukla (International Institute for Population Sciences), Abhishek Kumar (International Institute for Population Sciences)

30 Burden of Communicable and Non- Communicable disease in Urban India: A Regional Analysis

Ajit Yadav (International Institute for Population Sciences, Mumbai.)

31 Dynamics of child sex ratio in Urban India: A Regional/spatial patterns

Ajit Yadav (International Institute for Population Sciences, Mumbai.)

- 32 Leveraging Local Environmental Health Capacity to Inform Geospatial Assessment of Healthy Food Access in Contra Costa County, California**
John Kaufman (Association of Schools and Programs of Public Health)
- 33 Expenditure on Maternal Health Care in Uttar Pradesh, India: study of out of pocket expenditure leading to catastrophic and health impoverishment**
Priyanka Yadav (Jawaharlal Nehru University)
- 34 Lifestyle Induced Morbidities among Elderly in India**
Pradeep Salve (International Institute for Population Sciences), Anshul Kastor (International Institute for Population Sciences)
- 35 Experiences of neonatal deaths among the urban poor in Metropolitan Delhi: poor commination, poor quality, and an overwhelmed system**
Jayanta Bora (Public health Foundation of India), Nandita Saikia (Jawaharlal Nehru University)
- 36 Does Impact of Socio-Economic Status on Health Status Converge or Diverge with Life-Course: An Investigation of Chinese Older Adults**
Anshul Kastor (International Institute for Population Sciences)
- 37 Disability of older women is more in urban area than rural area in Bangladesh :It needs deep attention**
Yeasmin Jahan (Urban Primary Health Care Services Delivery Project), Md. Abu Bakr Siddique (Urban Primary Health Care Services Delivery Project)
- 38 The distribution of healthcare facilities in two cities in Bangladesh**
Shaikh Mehdi Hasan (International Centre for Diarrhoeal Disease Research, Bangladesh (ICDDR,B)), Shakil Ahmed (International Centre for Diarrhoeal Disease Research, Bangladesh (ICDDR,B))
- 39 Women's Attitude towards Wife-Beating and its Behavioural Impact on their Maternal and Child Healthcare Service Utilization in Selected South Asian Countries**
Anshul Kastor (International Institute for Population Sciences)
- 40 Growing disparity in use of maternity care across ethnic groups in India: Does place of residence matter?**
Abhishek Kumar (International Institute for Population Sciences)
- 41 Migration, Urban Health, and Sex Work: a paper that explores the use of narrative and visual methods when seeking to examine the lived experiences of migrant sex workers in South Africa**
Elsa Oliveira (African Centre for Migration and Society, University of the Witwatersrand)

42 Direct and Indirect cost of access to health facilities among women of reproductive age in Pakistan. Geographic and financial barriers remained significant contributor in seeking care. Results from Pakistan demographic health survey 2012-13

Nadia Shah (School of Public Health), Sumera Inam (School of Public Health, Dow University of Health Sciences)

43 Pattern and Distribution of Body Mass Index among Young Adults in a Nigerian University: A Comparative Study of Iife and WHO Classification Systems

Asafa Abiola (Department of Physiological Sciences, Obafemi Awolowo University, Ile-Ife.), Ogunlade Oluwadare (Department of Physiological Sciences, Obafemi Awolowo University, Ile-Ife.), Ayoka Abiodun (Department of Physiological Sciences, Obafemi Awolowo University, Ile-Ife.), Irinoye Adedayo (Medical and Health Services, Obafemi Awolowo University, Ile-Ife.), Owen Osasogie (Medical and Health Services, Obafemi Awolowo University, Ile-Ife.)

44 A Case for Urban Health and Climate Observatory within Urban Health System in India

Dr Vikas Desai (Urban Health And Climate Resilience Center), Suresh Rathi (Urban Health And Climate Resilience Center), Ashish Naik (Health Department, Surat Municipal Corporation), Hemant Desai (Health Department, Surat Municipal Corporation)

45 Developing collaborative climate change policy in cities through a focus on health

Sabrina Dekker (University College Dublin)

46 Determinants of Vulnerability to HIV in Urban Settings in Ethiopia

Mirgissa Kaba Serbessa (School of Public Health; Addis Ababa University), Girma Taye (School of Public Health; Addis Ababa University), Muluken Gizaw (School of Public Health; Addis Ababa University), Israel Mitiku Hatau (School of Public Health; Addis Ababa University), Zelalem Adugna (ohn Snow Inc. Ethiopia, Addis Ababa, Ethiopia)

47 The Context of Urban Food Environment for Weight Management: “In A City with 24/7 Availability”

Nan-He Yoon (Seoul National University), Seunghyun Yoo (Seoul National University)

48 To test not to test: Household Contact screening of Tuberculosis patients in urban slum, Dhaka

Malabika Sarker (JPG School of Public Health, BRAC University), Rifat Mahfuza (JPG School of Public Health, BRAC University), Mrittika Barua (JPG School of Public Health, BRAC University), Avijit Saha (JPG School of Public Health, BRAC University), Afzal Aftab (JPG School of Public Health, BRAC University)

49 A Qualitative Multi-Methods Approach for Perceived Urban Built Environment for Physical Activity of Older Adults

Dong Ha Kim (Seoul National University), Haeli Kang (Seoul National University), E Rang Park (Seoul National University), Seunghyun Yoo (Seoul National University)

50 Spatial Analysis of Emergency Medical Services Data to Determine Drivers of Emergency Transports

Daniel Allgeier (Contra Costa County Public Health Department), Abigail Kroch (Contra Costa County Public Health Department)

51 Physical and social environment indicators obtained by Systematic Social Observation: distinguishing between health inequities and health inequalities

Dario Costa (Federal University of Minas Gerais – UFMG, Belo Horizonte Observatory for Urban Health – OSUBH, School of Medicine), Sueli Mingoti (Federal University of Minas Gerais (UFMG)), Amanda Andrade (Federal University of Minas Gerais – UFMG, Belo Horizonte Observatory for Urban Health – OSUBH, School of Medicine), Fernando Proietti (Federal University of Minas Gerais – UFMG, Belo Horizonte Observatory for Urban Health – OSUBH, School of Medicine), César Xavier (osub)

Achieving health equity through place-based interventions.

Authors

1. Prof. Roshanak Mehdipanah (University of Michigan)
2. Prof. Hortensia Amaro (University of South California)
3. Prof. Julie Clark (University of Glasgow)
4. Dr. Manuel Franco (University of Alcalá)

Abstract

Populations living in socially disadvantaged areas often defined as low socio-economic status, high social exclusion, poor physical environments, and increasing crime rates, tend to have poorer physical and mental health outcomes. Therefore, place-based interventions can offer different solutions to address the health inequities faced by these populations through positive impacts on various social determinants of health.

In this session, four international researchers have joined to describe the different perspectives involved to achieve health equity through place-based interventions.

Dr. Hortensia Amaro will provide an introduction to place-based interventions and their impacts on health while discussing the importance of moving upstream when developing interventions in order to address health equity.

Dr. Julie Clark provides an urban planning perspective by discussing the use of mixed-methods to study place-based interventions like urban regeneration and mega-events in Glasgow, and their health impacts across neighborhoods.

Dr. Manuel Franco will discuss the importance of establishing partnerships and working with community members when designing interventions. He draws on a photovoice project used to better understand the food environment of a low-income area of Madrid in order to help develop recommendations for interventions and policies to address population diet.

Dr. Roshanak Mehdipanah will conclude the session by discussing some of the theories associated with place-based interventions and their impacts on health equity. This will include a closer look at the mechanisms involved and the concept of 'place-bound' populations described by the frequency or degree of interaction an individual has with their neighborhood.
